

GURSHARAN SINGH

Software Developer

Jamshedpur, India | +91 6200317297 | sharan.wave@gmail.com | github.com/gur-sharansingh | linkedin.com/in/Sharan986

PROFESSIONAL SUMMARY

Full-stack developer and technical lead with hands-on experience building and deploying production web applications using Next.js, React.js, Node.js, and MongoDB/PostgreSQL. Leads technical infrastructure for university hackathons and developer events, and has independently built and launched multiple platforms serving **250-800+ users**, including a hackathon registration system and an AI-integrated student networking platform. Seeking a software engineering internship or entry-level role to apply full-stack and AI integration experience to production-scale products.

EXPERIENCE

Technical Lead — Code and Compute Society, ARKA JAIN UNIVERSITY

Apr 2026 – Present

- Lead technical operations and infrastructure development for university hackathons, coding events, and developer-focused initiatives, managing a team responsible for deployment and automation workflows.
- Conduct Git/GitHub and modern web development training sessions for students and student contributors.
- Collaborate with organizing teams to design and deploy scalable event platforms under strict launch timelines.

Next.js / MERN Stack Developer — Freelance Full-Stack Developer

2025 – Present

- Build and deploy production-grade web applications end-to-end using **Next.js, TypeScript, React.js, Node.js, and MongoDB**, owning frontend, backend APIs, and deployment on DigitalOcean droplets.
- Integrate AI APIs to power OCR workflows, chatbot systems, and automated response generation for client projects.

PROJECTS

HackHorizon Platform | Next.js, TypeScript, MongoDB, Node.js

- Built and deployed the official hackathon platform handling registrations, submissions, and participant workflows for an event with **800+ participants across 150+ teams**.
- Implemented automated organizer workflows and scalable, high-concurrency backend systems for participant management.

PROVN | Next.js, JavaScript, AI API Integrations, Cloud Deployment

- Developed a collaborative networking and opportunity-discovery platform connecting students and builders, growing to **250+ active users** during pilot launch.
- Integrated AI-powered chatbot workflows and automated response-generation systems into a responsive, full-stack architecture.

OneRepMaax Gym | React.js, JavaScript, SEO

- Developed and deployed a production fitness platform, achieving **17,700+ organic page impressions across 6 months** of launch; owned frontend, deployment, and production maintenance.

Collabbase | Next.js, TypeScript, MongoDB, Firebase

- Built a collaborative project-coordination platform with authentication, dashboards, and a modular, responsive architecture for scalable backend integrations.

SKILLS

Languages: JavaScript, TypeScript, Java, Python, Solidity, C/C++

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL

AI Integrations: Gemini API, NVIDIA API, OCR APIs, Prompt Engineering, AI Chatbot Integration

Tools & Platforms: Git/GitHub, Linux, DigitalOcean, Postman, Firebase, Supabase, Ethers.js, MetaMask

ACHIEVEMENTS

Winner — Young Indians IDS 2026 (6-week innovation challenge) | **Winner** — Google TechSprint Hackathon, GDGOC AJU | **Second Runner-Up** — Smart India Hackathon Internal Hackathon | Offered IEEE Webmaster role for technical contributions

EDUCATION

Bachelor of Computer Applications (BCA) — ARKA JAIN UNIVERSITY

2025 – 2028

Jharkhand, India | CGPA: **9.2/10** (First Semester) | Coursework: Data Structures & Algorithms, Computer Networks
